

I am a user of the XM satellite radio service. I fully support everything that XM has to offer, including, but not limited to, the weather and traffic reports that have become available recently. I also enjoy the variety of programming that I can only receive with this PAY service. I do not understand how a pay service can be regulated by the NAB, and would like to ask that the petition filed by the NAB, 04-160, be denied. Please feel free to contact me to hear further complaints about this matter. Sincerely,
Robert Saldana
